

# BENEFIT COVERAGE POLICY

**Title:** BCP-04 Observation Care Services

**Effective Date:** 01/01/2021

Physicians Health Plan  
PHP Insurance Company  
PHP Service Company

## Important Information - Please Read Before Using This Policy

The following coverage policy applies to health benefit plans administered by PHP and may not be covered by all PHP plans. Please refer to the member's benefit document for specific coverage information. If there is a difference between this general information and the member's benefit document, the member's benefit document will be used to determine coverage. For example, a member's benefit document may contain a specific exclusion related to a topic addressed in a coverage policy.

Coverage determinations for individual requests require consideration of:

1. The terms of the applicable benefit document in effect on the date of service.
2. Any applicable laws and regulations.
3. Any relevant collateral source materials including coverage policies.
4. The specific facts of the particular situation.

Contact PHP Customer Service to discuss plan benefits more specifically.

### 1.0 Policy:

Health Plan covers observation care services.

For all non-network covered services to be paid at the network benefit level except for emergency/urgent services, prior approval is required.

Refer to member's benefit coverage document for specific benefit description, guidelines, coverage, and exclusions.

### 2.0 Background:

Observation care services include initial care, subsequent care and discharge services. It is a well-defined set of specific, clinically appropriate services, which include ongoing short-term treatment, assessment, and reassessment before a decision can be made regarding whether patients will require further treatment as Hospital inpatients or if they are able to be discharged from the Hospital. Observation status is commonly assigned to patients who present to the Emergency Department and then require a significant period of treatment or monitoring before a decision is made concerning their admission or discharge. During these stays, a variety of outpatient services may be rendered, such as laboratory tests, drugs, minor procedures, x-rays, and other imaging services.

Patients do not need to be located in a designated observation area as long as the medical record indicates that the patient was admitted as "observation status" and the reason for observation care is documented. Observation services are usually needed for 48 hours or less.

### 3.0 Clinical Determination Guidelines:

None.

### 4.0 Coding:

Prior Approval Legend: Y = All lines of business; N = None required; 1 = HMO/POS; 2 = PPO; 3 = ASO group L0000264; 4 = ASO group L0001269 Non-Union & Union; 5 = ASO group L0001631; 6 = ASO group L0002011; 7 = ASO group L0001269 Union Only; 8 = ASO group L0002184.

### 3.0 Unique Configuration/Prior Approval/Coverage Details:

None.

### 4.0 Terms & Definitions:

Medically Necessary, Medical Necessity. Coverage of health care services and supplies that we determine to be medically appropriate per Health Plan medical policy and nationally recognized guidelines, and are:

- Not Experimental or Investigational Services.
- Necessary to meet the basic health needs of the Covered Person.
- Delivered in the most cost-efficient manner and type of setting that is appropriate.
- Consistent in type, amount, frequency, level, setting, and duration of treatment with scientifically based guidelines that are accepted by Health Plan.
- Consistent with the diagnosis of the condition.
- Not done for reasons of convenience.
- Demonstrated through current peer-reviewed medical literature to be safe and effective.

Even if you have already received treatment or services, or even if your health care provider has determined that a particular health care service or supply is medically appropriate, it does not mean that the procedure or treatment is a Covered Health Service under the Policy.

Observation Care. A well-defined set of specific, clinically appropriate services, which include ongoing short-term treatment, assessment, and reassessment before a decision can be made regarding whether patients will require further treatment as Hospital inpatients or if they are able to be discharged from the Hospital. Observation status is commonly assigned to patients who present to the Emergency Department and who then require a significant period of treatment or monitoring before a decision is made concerning their admission or discharge.
