Effective July 1, 2023, City of Lansing Plans no longer require prior authorization for PT/OT Services

In an effort to make the authorization request process for PT and OT services easier, PHP has **modified the authorization requirements for PT and OT services. Effective July 1, 2023, PHP will no longer require prior authorization for PT/OT services for City of Lansing Plans (L0002193).**

Prior authorization for PT/OT services will still be required for PHP Michigan Care (L0002184) and PHP Covenant Select (L0002237).

All other services as outlined in the authorization/notification table continue to require prior authorization.

Please refer to the Provider Manual, located on the PHP website at [PHPMichigan.com/Providers](https://phpmichigan.com/providers) for information on how to request an authorization or contact the Provider Relations Team for assistance, by emailing PHPProviderRelations@phpmm.org.

PHP appreciates your efforts and continued compliance with our authorization review processes and we want to thank you for the time and information submitted in support of this process.
